

Safety and reliability that you can trust

SECURITY

Britton Decoflex continually push the boundaries on product development in the high security packaging market. We continually strive to develop products that add value, safety and reliability to our clients. In recent years we have launched new products such as;

- High-Strength, low-weight Security bags.
- Security bags for use with cold security dies.
- High Security RFID (Radio Frequency Identification) Bags

The new Intervoid Vault security, currency and valuables bag features high specification design with new applications to give a reduced cost option for Tamper Evident high volume transactions. This new product, an addition to our already extensive range of banking and security bags meets the standards required to ensure safe and secure handling of all valuable items.

- Improved security, deterrence and detection of fraud.
- Thinner yet stronger, more durable VPC film technology.
- Unique sequential bar-coding and numbering on bag and on optional receipts.
- Customer specific barcode symbology printed up to 30mm high for ease of read.
- Eye readable numbers up to 20mm high for easy recognition by security camera.
- Edge seal security printing.
- Write on panel with bespoke features.
- Integral wallet air release if required.
- Lower Cost Option.
- Customisable features and design.
